

JOB OBJECTIVE

Elevating success through a demonstrated track record of excellence in software development and proficiency in Java full stack technologies. Seeking to leverage extensive experience to make impactful contributions to a progressive organization, while continually enhancing skills and knowledge in pursuit of professional growth.

EDUCATION

- 2020:** Bachelor of Technology (B.Tech.-CSE) from Nova College of Engineering & Technology, Eluru, Andhra Pradesh.
- 2016:** Intermediate (MPC) from Sir.C.R.R. Autonomous college, Eluru, Andhra Pradesh.
- 2014:** S.S.C. from Little Buds Convent, Eluru, Andhra Pradesh.

CORE COMPETENCIES

- Software Development Lifecycle
- Application Architecture & Microservices Development
- Cloud Deployment (AWS, Docker, Kubernetes)
- Performance Optimization & Monitoring (Splunk, Dynatrace)
- CI/CD Pipelines & DevOps (GitLab, Jenkins)
- Cross Functional Coordination
- Quality Assurance & Automated Testing (JUnit, Mockito)
- Continuous Improvement & Agile Methodology
- Web Application Security & Authentication (JWT, OAuth2)

PROFILE SUMMARY

- An Accomplished **software developer** around 4 years of experience, specializing in **Java, Spring Boot, and Microservices**, currently contributing to **HTC Global Service** since June 2024.
- Working on a **large-scale insurance project** for a leading U.S. insurance provider, focusing on **policy management, claims processing, and customer service modules**. Developed and optimized **RESTful APIs** using **Java 17, Spring Boot, and Microservices**, ensuring high performance and scalability.
- Experienced in **cloud technologies (AWS), containerization (Docker, Kubernetes), and CI/CD integration (GitLab)**. Proficient in **monitoring and performance analysis** with **Splunk & Dynatrace**.
- Hands-on experience with **React.js** for front-end enhancements and UI integrations, along with backend optimizations using **SQL, MySQL, and stored procedures** to improve system efficiency.
- Previously worked at **Innova Solutions**, leading the development of **Lync-OMS**, focusing on **bug fixes, performance improvements, and streamlined deployment**.
- Strong advocate for **Agile methodology**, cross-functional team collaboration, and real-time **code quality monitoring** with **SonarQube & Sonar Lint**.
- Proficient in testing frameworks like **JUnit & Mockito**, ensuring application reliability through robust **unit and integration testing**.
- Dedicated to delivering **high-quality software solutions** with a keen focus on **performance, scalability, and business impact**.

WORK EXPERIENCE

HTC Global Service, Hyderabad

Java Full Stack Developer | June 2024 – Present

- Working on a large-scale insurance project for a leading U.S. insurance provider, focusing on policy management, claims processing, and customer service modules.
- Developing and optimizing Spring Boot microservices using Java 17, ensuring high performance and scalability.
- Utilizing Docker, Kubernetes, and AWS for deployment and infrastructure management.
- Implementing CI/CD pipelines with GitLab, and monitoring system performance using Splunk & Dynatrace.
- Enhancing UI components with React.js and integrating RESTful APIs for seamless frontend-backend communication.

Innova Solutions, Hyderabad

Permanent Employee | Java Full Stack Developer | April 2022 – May 2024

- Leading the development of web-based applications such as the **Lync-OMS** with a focus on rectifying issues and improving performance.
- Engaging with cross-functional teams to guarantee the smooth operation of applications and successful deployment.

- Database Management & API Integration

IT SKILLS

Languages: Java

Databases: MySQL and SQL Server

Development Tools & PM Tools:

- IntelliJ IDEA, VS Code, Eclipse
- Git, GitHub, GitLab, Bitbucket
- JIRA, Digital.ai Agility
- Insomnia, Postman

Frameworks:

- Spring Boot, Spring Data JPA, Hibernate
- Angular, React.js
- Apache-NIFI

Cloud & DevOps:

- AWS (EC2, S3, Lambda)
- Docker, Kubernetes
- CI/CD (GitLab, Jenkins)

Monitoring & Logging:

- Splunk, Dynatrace

Other Skills:

- RESTful Services, Microservices Architecture
- Web Security (JWT)
- HTML, CSS
- Agile Methodology

PERSONAL DETAILS

- **Date of Birth:** 9th February 1998
- **Languages Known:** English & Telugu
- **Address:** 6-48, Uppaluru, Krishna District, Andhra Pradesh-521151

- Guiding the customization of processors for users to enhance efficiency and user satisfaction, while utilizing deployment tools for CI/CD Integration using Jenkins.
- Successfully resolved critical issues, ensuring uninterrupted application functionality and user satisfaction.

TechEra IT Consulting, Hyderabad

Trainee & Contract –Based | Java Developer | July 2021 – April 2022

- Completed a 6-month Java training program and transitioned to a contract role at Innova Solutions.
- Worked on Lync-OMS, contributing to development and enhancements.
- Received recognition for valuable contributions and technical proficiency.

MAJOR PROJECTS

- **Project Name: Insurance Application (Policy & Claims Management)**
Role: Java Full Stack Developer
Tech Stack: Java 17, Spring Boot, Microservices, React.js, Docker, Kubernetes, AWS, GitLab, Splunk, Dynatrace
Duration: June 2024 - Present
Description:
 - The client required a policy and claims management system to streamline insurance operations, improve customer service, and automate claims processing.**Highlights:**
 - Developed and optimized Spring Boot microservices for a leading U.S. insurance provider.
 - Integrated CI/CD pipelines (GitLab), containerization (Docker, Kubernetes), and cloud deployment (AWS).
 - Monitored application health using Splunk & Dynatrace.
 - Enhanced UI interactions by integrating RESTful APIs with React.js.
- **Project Name: Lync OMS Application**
Role: Java Full Stack Developer
Environment: Java, Spring Boot, SQL Server, Angular, Git, Bitbucket, Jira, Jenkins, IntelliJ, SonarQube
Duration: January 2022 – May 2024
Description:
 - The Client needs an OMS (Order Management System) application that can be used to simplify placing business orders.**Highlights:**
 - Developed and maintained an Order Management System (OMS) to streamline business orders.
 - Fixed bugs, optimized performance, and enhanced security with JWT authentication.
 - Managed Bitbucket repositories and collaborated with onshore/offshore teams.
 - Resolved production issues to ensure smooth order processing.
- **Project Name: NIFI Development**
Role: Java Developer
Environment: Java, MySQL, Apache NIFI Framework, Git, Eclipse
Duration: September 2022 – December 2022
Description:
 - The Client needs customized NIFI processors that can be used to simplify the PDF/RTF to Text conversion.**Highlights:**
 - Developed custom NIFI processors for PDF/RTF to Text conversion.
 - Integrated processors into the NIFI framework for user-friendly selection.
 - Documented the solution for seamless client adoption.
